PREVENTION MEASURES

For safety reasons, our detection devices are highly sensitive and can be triggered by smoke, excessive steam or even aerosols. Close bathroom doors when showering. Never leave cooking unattended and always ventilate the area with the cooker hood and open windows. Smoking, vaping, naked or covered flames and deep fat frying are not permitted.

GENERAL SAFETY TIPS

- Don't prop doors open (including fire doors).
- Always carry your keys and keep them safe. Never give your keys to anyone else.
- Be aware of strangers on the premises. If you're not sure who someone is, ask them or alert the staff.
- Always lock your door when you're going out and keep it closed at all times even if you are just nipping to the kitchen/bathroom.
- If you see anything suspicious, report it to staff as soon as possible.
- If your room is at ground level or easily accessible from the ground, make sure your windows are shut before you go out. Windows will only tilt outwards and should not open fully.

FIRE SAFETY

WHAT YOU NEED TO KNOW

(these are displayed in your flat)

IF YOU DISCOVER A FIRE

FIRE DOORS SHOULD REMAIN CLOSED AT ALL TIMES AND SHOULD NOT BE WEDGED OPEN, DOING SO WILL POSE A SERIOUS SECURITY AND FIRE RISK.
